### NEED OF A NEW NAVY

Large Appropriations Will Be Asked From Congress.

MANY CONSIDERATIONS URGED IN ITS FAVOR.

Washington, Sept. 7.—Special—While little has been said in official circles on the subject there is no doubt but congress will be asked for a more than ordinarily liberal appropriation for the naval establishment. The late war has demonstrated in a striking manner the value of good ships of war commanded by competent seamen and strategists. It is regarded as more than probable that any wars in which this country may be engaged in the future will be fought chiefly at sea. The battleships Wisconsin and Illinois, shortly to be launched, will be duplicates of the Oregon, which has proved her superior sailing and fighting qualities. A half dozen other ships of the same class are needed to place the navy upon a strong footing, and these will doubtless be authorized by congress at its coming session. That these may be properly officered in the future as well as upon the start it is in contemplation to increase the capacity of the naval academy at Annapolis, and to thoroughly organize the naval reserve corps. It is not believed that there will be any serious opposition to these plans in congress, although they involve a considerable increase in the appropriations for the navy. That our new possessions in the eastern waters and in the West Indies will necessitate the maintenance of a strong navy is admitted on all sides.

### A General Mustering Out.

Washington, Sept. 7.—Special—At least fifty thousand volunteers will return to their homes and be mustered out of the service during the present month. It is the desire of the president to disband the army as soon as it can be done with safety. Economy in the public expenditures is not the only purpose sought. The president is governed more by a desire to restore the volunteers to their homes, where many of them are needed for the support of families. If the proposed increase in the regular army to 75,000 men is approved by congress, the volunteers of the late war who desire to enlist will receive the preference.

### Died Like a Hero.

Havana, Sept. 7.—Special—The reports of the shooting of the insurgent leader Robt. Bermudez are confirmed. His death was dramatic. He faced the firing squad, refusing to be shot with his back to the executioners. He then asked permission to direct the firing himself, which was granted. He gave the command to fire, and fell mortally wounded. Unable to speak he asked the soldiers by signs to dispatch him. The request was complied with.

### HAVERLY VISITS US FRIDAY.

Will Bring His Famous Minstrels to the Meyers Grand Opera House.

Without doubt Col. Jack Haverly is the prince of minstrel managers. A poor show never traveled under his name, and the company he has in charge the present season is one of the best he has ever controlled. Janesville will have the opportunity to see Col. Jack's show on Friday evening at the Meyers Opera House. The Milwaukee Sentinel, in speaking of the performance, says:

"Of the performers, Billy Rice—the same old Billy with that wonderful blunk, that capacious mouth and absurd waddle—played the star part. His book song given with all his old time gusto, brought down the house and his speechifying proved a luminous spectacle to the youngsters who had never before seen this king among the black-faced stage people. Frank Quabman was to the front the whole evening with his gay songs and dances and that ear-splitting way of addressing remarks to the delighted gallery. His special song is 'Klondike Bill' in which he makes up as the gambler from the Arctic region was as great as his singing. John Blackford's 'I'd Like to Be a Little Bird,' with its climaxes and anti-climaxes was one of the hits of the evening and Charles White's singing of 'Asleep in the Deep' was one of the most musical and best rendered numbers. There were songs by Buck Shefer, Neil O'Brien, Will Walling and John Early, and each of them was good, while the turn done by the Nicholas sisters, who gave an imitation of colored maidens off on a mild little lark, proved a novelty even in these days of cake walk specialties. Their dancing had a certain grotesqueness of effect that tickled the spectators and they mimicked, to the queen's taste the ways of the darkey belle."

### SPOKE UPON SOCIALISM

J. F. Lloyd Lectures Upon Economic Social Problems.

J. F. Lloyd the Chicago labor orator, delivered a lecture at the Central Labor Hall last evening on "Socialism." He explained at length some of the problems of government that have distracted sages and statesmen for generations past, and spoke of socialism as the remedy for many of the evils to which the people are now subject. Socialism, he said, was derided by capitalists and those who lived on the earnings of labor. His idea was for labor to live upon its earnings—to enjoy the fruits of that prosperity which it creates.

The speaker pointed out some of the evils of monopoly. The concentration of wealth in the hands of a few had reduced the many to a condition verging upon slavery or pauperism. Only by making labor independent of capital could it attain its highest influence.

## THEY WANT TO COME IN

Philippine Islanders Want to Join The Union.

WILL REBEL IF RELEGATED AGAIN TO SPANISH CONTROL.

Washington, Sept. 7.—Special—Advices from the Philippines state that nearly the whole native population is in favor of annexation to the United States. No suggestion of a return to Spanish vassalage will be entertained, and in case of the withdrawal of the Americans from the island there will be a general flocking to the insurgent camps, now almost deserted. The people are docile under the rule of the American military commander and court the favor of Americans generally. It is the opinion of many officials here that the only way to prevent difficulty will be to give the Philippines a measure of self government under the protection of the American flag.

### May Go to Hawaii.

#### Rubber Collars for Police.

From the Baltimore Sun: The police board has given the men on the force the privilege of wearing rubber collars, as well as linen and celluloid collars. They must be of the regulation style. About 125 of the collars have been received at the central police station for men in the district. Nearly all on the force will give the collars a trial, and have ordered one or two at a cost of 25 cents each. An effort was made to have the board adopt the rubber collars as the only kind to be worn by the men on the force. The board refused to do this. The collars are very stiff and similar to the celluloid collars, and can be cleaned in the same way, by the use of a wet sponge or cloth.

#### A Woman Gravedigger.

A woman as a gravedigger! The idea seems almost impossible, but in the town of Lewes, England, says Tit-Bits, there is a lady who fills the office of sexton. Everybody knows her, and until recently she dug all the graves in Lewes Cemetery. Now, at the age of 60, she contents herself with filling them up and attending to the mounds and flowers. Mrs. Steel—the name of the sextoness, if one can use such a term—is a very healthy old lady, and she has been heard to say that she will never leave her post until it is her turn to have a grave dug for her. May the time be far distant. It is a wonderful sight to witness the old lady use the spade.

## REPORT RICH GOLD FIELDS.

New El Dorado Discovered on the Yukon.

## STEAMER BRINGS THE NEWS.

The Portland Arrives at San Francisco with Many Boxes of the Precious Metal and the Lucky Miners—Predicts a Hard Winter in Dawson.

San Francisco, Sept. 7.—The steamer Portland, just arrived from St. Michael's with about \$1,500,000 worth of gold dust and nuggets, brought six boxes of precious metal belonging to the Canadian Bank of Commerce and three boxes for the Alaska Commercial company, each box weighing over 250 pounds. The lucky miners on board were few, Charles Anderson, John Lee, E. Nelson, William Young and James McMahon being among the fortunate ones. Anderson is said to have cleared up over \$60,000.

The Portland brought news of a rich strike on the Yukon in American territory. The headwaters of Kayakuk have panned out rich and 400 men are digging there and twice that number are waiting to sledge there this winter. Kayakuk is about 1,000 miles from the mouth of the Yukon and is about 600 miles in length. It is this side of Minook, and from the latter place, from Fort Hamilton, and Circle City the prospectors will go in this winter.

Two miners recently were shot by Indians in Lake Tagish. One was killed and the other wounded. The criminals have been placed on trial at Dawson.

James Murphy, one of the Portland's passengers, says: "It is going to be a hard winter in Dawson and all along the river. Provisions will be scarce and then the trouble will come. Out of thirty river boats, at least twenty of them will be frozen in. The majority of the boats will get no further than Circle City if they get that far."

## GOLD WON'T LAST.

That Is Capt. John McGaffey's Opinion of the Klondike.

San Francisco, Sept. 7.—Capt. John McGaffey, ex-collector of customs for Alaska, and a mining engineer by profession, has arrived here from Dawson City.

His summing up of his experience is that the gold placer diggings of Alaska are short-lived, and that there are no true fissure veins in that territory, because the country is too much broken up and because the geological indications are such as to warrant the conviction that there is no gold-bearing quartz in the place.

Large broken "deposits" of gold or bonanzas may be found there, but they will be of the nature of pockets and will not last.

## Patients Are Nearly Wrecked.

Newport, R. I., Sept. 7.—The steamer Lewiston, chartered by the Massachusetts Volunteer Aid association, with nearly 200 sick soldiers on board, bound from Mount Point to Boston, ran ashore near Point Judith last night, and narrowly escaped wreck. One hundred and thirty-five of the men were placed in a lighter, which, fortunately, was in the breakwater, and were brought to this city in a tug about midnight. The sick soldiers were in such an exposed place on the bare deck of the lighter during the trip of fifteen miles across the bay from Point Judith that a number of them are not expected to reach Boston alive. As many as possible will be forwarded by a special train.

## Supplies Go to Havana.

Havana, Sept. 7.—Senor Fernandez de Castro, the civil governor of Havana, has addressed a circular dispatch to the mayors of the provincial towns instructing them, in order to avoid mistakes, to "correct the ignorance regarding the origin of the relief supplies now being sent into the interior from Havana," and to take steps to inform every inhabitant that the supplies are "bought, paid for and distributed by the colonial government, unaided by any foreign help or subscription."

## Ordered to Samoa.

The British docks not being available, the Bennington will stop at Mare Island to coal.

## FIGHTERS TO BE HONORED.

President Intimates Brevets Will Not Be as Plentiful as Blackberries.

Washington, Sept. 7.—There will be but few brevet promotions on account of service in the Spanish war. At the close of the civil war brevet ranks were so plentiful that they lost all merit. This fact is so notorious that the president has announced that he will not entertain recommendations for brevet rank except for services rendered in battle and that this decision will govern in all cases. This determination of the president was communicated by cable Aug. 29 to Gen. Merritt in reply to a recommendation of that officer that brevets be granted to Maj. McClure, Whipple and Kilbourn, whose extraordinary services in the payment of troops should be recognized.

## Lays Blame on Colonels.

Washington, Sept. 7.—Considerable complaint has reached the war department because the volunteer troops in Cuba did not receive their pay there. In most instances the government was three months in arrears, and it has been criticised for not paying the men promptly. Now that the troops have returned to the United States it develops that the men were not paid because the colonels of fifteen regiments requested the paymaster-general to withhold the money due the troops until they should return to the United States. Paymaster-General Stanton says that the government had an efficient corps of paymasters and plenty of money in Cuba and could have paid the men promptly but for the requests made by the officers.

## Welcome the Editors.

Denver, Sept. 7.—A right royal welcome has been accorded the hundreds of delegates to the National Editorial association convention and the visitors who have accompanied them. The convention was called to order at 10 o'clock today and the annual address was delivered by Louis Holtman of Indiana, the retiring president of the association, after which remarks concerning the work of the organization, "Editoria," the national home which it has established for disabled editors and printers, the "Loud bill" and other matters of importance to the craft were made by National Secretary J. M. Page of Illinois and B. B. Herbert of Chicago, founder of the association.

The chief executive and his wife show the beneficial effects of their brief outing, and express themselves as being greatly pleased with their outing.

Memphis Closed to the World. Memphis, Tenn., Sept. 7.—As announced Sunday night, Memphis has quarantined against the world on account of yellow fever. Spaniards Want Annexation. Havana, Sept. 7.—This city is absolutely quiet. THE COUNTY TICKET.

The republican county ticket is winning new support each day. The tax payers know the men whose names appear thereon and realize that to retain them in the public service means a saving of the people's money. The convention that chose the candidates was nearly unanimous in its action. Only two officers were nominated by ballot, and the second ballot was decidedly decisive in both cases. The others were candidates named by acclamation. A convention more unanimous in expressing the preferences of the people was never held in Rock county.

W. H. Appleby heads the ticket as the candidate for sheriff. That unexcelled service and at the least possible cost will follow his election, is not denied even by his opponents. This being the case, there is no question about his triumphant election. The people want returns for their money, and qualifications for the place will decide the matter with them. This is as it should be.

F. P. Starr, the candidate for county clerk, is a man of splendid talents for the work of such an office. He has spent his life in the school room, and can fill any clerical position to the complete satisfaction of the most exacting tax payer.

A. C. Thorpe has filled the office of county treasurer with credit, and has earned the re-election that will be his portion, by the faithful discharge of the trust confided to him.

O. D. Rowe's administration as register of deeds has been marked by absolute fidelity, and remarkable accuracy. People who deal in real estate do not want mistakes made in recording their deeds, etc., and O. D. Rowe's election is an assurance that the business of the office will be transacted as it should be.

W. A. Jackson's record as district attorney has been unusually good. During his term of office more offenders have been sent to Waupun than was ever before in the same length of time. Mr. Jackson has been fearless, tireless and conscientious, and his re-election will be a fitting recognition of services rendered.

Clerk of the Court T. W. Goldin is popular with people and attorneys alike. The important records of his office are without a flaw or a blemish. The painstaking care and professional knowledge for which Mr. Goldin is well known, are directed towards the best interest of the people, and that he will again be chosen goes without saying.

P. F. Brown is fully qualified for the office of county surveyor. He now holds the place of engineer for the city of Janesville, and is a thoroughly competent and trustworthy young man.

Max Pfennig, the candidate for coroner, is a well known citizen and commands the respect of all. When the republican convention selected Mr. Pfennig for the office it acted wisely.

Thus it will be seen that the county ticket is an unusually strong one this fall. It commands the respect of all believers in good government. Every republican in the county will support it, and so will many believers in the

doctrines of other parties. For its election insures the kind of service the people demand in return for the payment of their taxes.

METAL OF OUR SOLDIERS.

The rantings of certain newspapers is not creditable to the intelligence of the American citizens. There is much truth in the following statement, made by a high military authority at Washington: "The worst effect of this clamor about the suffering of the volunteers will be felt by the states in their effort to maintain an efficient National guard. This is the first experience in war the National guardmen have had. Their efficiency as soldiers has heretofore been theoretical.

"When this force was offered to the federal government as an army, everybody insisted that they were as good soldiers as the regulars. But the clamor about them undergoing the hardships which are common to a soldier's life, and which are borne uncomplainingly by the regulars, has demoralized the men, and made a soldier's duty appear very undesirable to the young men who make up the National guard. It will be found more difficult to fill the ranks of the guard in future.

"As for the United States army, this clamor has demonstrated that we must have a standing army of not less than 100,000 men, for only with a trained and seasoned army can we expect to go into another war with any expectations of success.

"The army which went to Santiago made a great reputation for American soldiers, regulars and volunteers, as fighting men, this reputation spread over Europe and the whole world. But before it has become a settled conviction that American soldiers are the equal of any other soldiers ever known in war, our yellow press has begun to strip the volunteers of every vestige of courage and every quality of endurance, so as to create the impression abroad that they are simply enthusiasts, who will make one rushing fight and then lie down and cry over their hardships in camp.

"We want the world to understand that the American soldier is a fighter and a slayer. The United States regulars have demonstrated that they are such soldiers. Most of the volunteers of this war have not had an opportunity to demonstrate their endurance. The yellow press has excited the people, and clamor has become general to send home the volunteers because they cannot endure camp life."

Friends of the Fourth Wisconsin regiment do not want the soldiers sent south, and will hold an indignation meeting. This is not necessary. The regiment should either obey orders, without complaint, or ask to be mustered out. A request by a majority of the men that their term of service be declared at an end, will be granted. This has been the rule of the war department. The regiment can go or not, as it sees fit.

Friends of the soldiers in the Fourth Regiment, now at Camp Douglas, will protest against sending the regiment south. If other states follow the example of Wisconsin, what will the government do for men? Volunteers are as urgently needed now as they were at the breaking out of the war.

That the war department has made mistakes cannot be denied, but that the department has not made as many mistakes as some newspapers and people charge, is equally true.

Certainly there is a "ring" in the republican party—the "ring of truth." There is also an imitation ring in the democratic party—the hollow sound of insincerity.

While criticizing the war department, remember the old adage "Be sure you're right, then go ahead."

NEW THING ON RAILWAYS.

Swiss Companies Issue Cheap Tickets Available on All Lines.

From the Paris Herald: Railway traveling in Switzerland has, since June 1, undergone quite a revolution. The following is the series of tickets delivered at all the most important stations at a couple of hours' notice, and at all small stations at twenty-four hours' notice:

	First class.	Second class.	Third class.
Fifteen days	60 fr	42 fr	30 fr
Thirty days	100 fr	70 fr	50 fr
Three months	240 fr	170 fr	120 fr
Six months	380 fr	270 fr	190 fr
Twelve months	600 fr	420 fr	300 fr

Tickets for one person valid for: For two persons of the same household the price of the ticket valid for twelve months is: First class, 800 francs; second class, 560 francs; third class, 400 francs. These new tickets enable the holder to travel as much and as long as he likes over the entire railway system of Switzerland, during the time of the validity of his ticket. He can travel every day and all day if he wishes, and in every direction. All lines are open to him (save a few minor funicular ones). The lake steamers are also available, a second-class railway ticket giving the right to a first-class ticket on the steamers. These tickets are rigorously personal and have attached to them a photograph of the holder; if misused, they are liable to confiscation, and the bearer incurs a heavy penalty. Tickets must be legibly signed with the holders' entire name. The duration of the validity of these tickets cannot be prolonged. No luggage is allowed free, and no allowance is made for tickets unused. With all applications for tickets the printed form of application must be used, and a photograph of the applicant inclosed. The application form is supplied at the railway station. When the few preliminary formalities are gone through with you are in possession of a ticket which gives you no further trouble, save that of course you have to present it on every demand, as an ordinary ticket, but you can travel far and wide, according to your sweet will, and leave no nook or corner of sunny Switzerland unvisited. This innovation will attract more travelers than ever to Switzerland, for it will render traveling there cheaper than in any other country. For a long time past the motto of the country in general has been "quantity before quality." It is the "quantity" that pays.

Maggie Mitchell's Quiet Life. Maggie Mitchell lives in one of the upper streets of Manhattan, and so quietly that many persons are not aware that she is in this part of the country. Her summers she spends at Cricket Lodge, Elberon, where she drives a little, bathes in the surface and swims and reads a little German, a language the study of which she has taken up within the last year or so. She objects to notoriety, says the New York Times, and keeps her identity from the public as much as possible. The name of Maggie Mitchell was a household word for so long that many persons have an idea that Mrs. Abbott—Maggie Mitchell's name in private life—must be old and decrepit by this time. "She went on the stage so young and played for so many years that people seem to think that she is a regular Methuselah," her daughter says, in almost indignant tones.

## HOSPITAL PATIENTS ARE LEFT BEHIND

NINE JANESVILLE BOYS ARE INCLUDED.

Telegram States That All the Bower City Boys Were Not Able to Leave—Atkinson and Fletcher of Hospital Corps Will Also Remain—Reception Awaits Them.

At midnight last night the Janesville boys who comprise Co. A, First Wisconsin Regiment, left Jacksonville for Milwaukee to be furnished there. A telegram to The Gazette from Thomasville, Ga., this morning, states that the entire regiment got away in good order and without an accident. Eight members of the Janesville company were too sick to be removed, and were left in the hospital at Jacksonville. Those who were left behind are: Corporal Knipschield, Privates Bond, Caniff, Inman, Morton, Slatzer, Trolle and Wheeler. Messrs. Atkinson and Fletcher, also of this city, will remain behind and care for the sick, for both are members of the hospital corps. They will come home as soon as the sick are able to stand the journey.

Able to Stand the Journey

Members of Co. A, who are now on their way north are all able to stand the trip, and although some of the boys are looking a little the worse for recent spells of sickness, there is not a case of serious illness aboard the train. With the boys that are left in the hospital they are all receiving the best of care and will soon be able to be removed providing nothing unforeseen sets in. Friday of this week will in all probability see the entire First regiment in Milwaukee. Preparations are now being made by many here to visit the Cream City as to be there when the boys arrive. There was considerable talk this afternoon in railroad circles to the effect that excursion rates would be offered, but up to a late hour nothing definite had come from headquarters. E. J. Samuels, of the St. Paul road, was in Milwaukee yesterday, and says that there was much talk there of such a move.

Just when the boys will arrive in Janesville is a matter yet undecided but it will be within the next four days, and in all probability it will be Saturday of this week.

Will Have a Reception.

As to a public reception awaiting them here, it now looks as though such a move will be carried through, and it should be. Hardly a city or town in the state that has had her sons at the front but what is planning just such a move at present. Local officials of the G. A. R. have called a meeting for the purpose of making arrangements for receiving the boys, and every loyal citizen in Janesville should lend a helping hand to the occasion. Let the entire city turn out and make the event a notable one in the city's history.

Breaking Camp.

Jacksonville, Fla., Sept. 7.—The First Wisconsin regiment left here for Milwaukee last evening. There are four sections, the first having left at 8 o'clock and the others following in short order. The first section has all the baggage and freight, in charge of Lieut. Thorpe. The second is occupied by the First battalion (Madison, Whitewater, Fort Atkinson and Racine), the second by the Second battalion (Janesville, Beloit, Darlington and Monroe), and the third by the Third battalion, composed of Milwaukee companies.

On the last section there is also what is known as the hospital train, consisting of four Pullman sleepers, in which all the sick able to travel are quartered. On each of the second and third sections there are also two Pullmans for the convalescent. The sick are together on the last section, and are in charge of Major J. R. McDill, of Milwaukee, who will return here as soon as he has seen the sick safely landed in Milwaukee.

Sick Left Behind.

Among the first things to be done was to determine what sick could go. Of the total number in hospitals it was decided that only about sixty were able to travel. This caused much protest on the part of the patients and some of their relatives and friends from Wisconsin, but Major McDill was determined that no risk should be taken. He explained that if they remained a few days longer, recovery was sure, while if they moved now they were in danger of relapse. His decision was final, and the sixty were taken to the train in waiting close by.

Among those left behind are Privates Pearl, Inman, Salzer and Knipschield, of the Janesville company.

At the trains many Jacksonville people had assembled to see the regiment off. Friends who have been made by the soldiers were on hand to bid them farewell. There was warm handshaking and there were tears in the eyes of many as they saw the regiment prepare to leave. The total number of officers and men on the trains is 1,192.

Arrangements for the Trip

Gov. Scofield and Adjutant General Boardman were in Chicago yesterday en route for Madison on their return from Washington, where they have been in the interests of the Wisconsin troops. General Boardman detailed the arrangements made to transport and care for the soldiers. "We carried on our negotiations with the war department through Adjutant General Corbin," said General Boardman. "We were treated with the greatest courtesy. The department has done all that could be asked of it. Arrangements were made to have the First regiment, which is at Jacksonville,

sent at once to Milwaukee, and it left for home at 4 o'clock this afternoon. The men will arrive in Louisville tomorrow at noon. I do not know just when they will get to Chicago, as the cars must be overhauled at Louisville. They will come to Chicago on the Pennsylvania and leave for Milwaukee over the Milwaukee & St. Paul. "A delegation of Milwaukee citizens will meet each regiment in Chicago on their arrival here with surgeons and ambulances. Great preparations have been made in Milwaukee for the entertainment of the First regiment, in which are four Milwaukee companies. Tent flies will be pitched on the square opposite the Milwaukee and St. Paul depot, and a public reception held. From there the boys will be taken to the Plankinton house and given lunch. The sick who are able to come through will be taken immediately to the hospitals in Milwaukee."

## DEATH COMES TO BLIGHT THE HOME

MRS. ELIZABETH WOOD EXPIRES AT AN ADVANCED AGE.

She Was An Old Resident of Rock County And Leaves Many Friends to Mourn Her—Young John B. Inman Dies At the Plymouth Home.

Mrs. Elizabeth Wood, who for fifty-eight years has been a resident of Rock County, departed this life, September 2, at her home in this city, 110 Park street, aged sixty years. She was the widow of the late Daniel Wood. Mrs. Wood was born in Monroe county, New York, August 11, 1838, and came to Rock county when but two years of age. She leaves five brothers and four sisters, three of them being here to attend the funeral—A. L. Boynton, of Milwaukee; O. A. Boynton, of Minnesota; and Mrs. Julia Dawey, of Chicago. Two daughters, Misses Ida and Emma Wood are left to mourn the loss of a kind, patient and loving mother, although she passed through extreme physical suffering during the past few months. She bore it all with that patience, fortitude and cheerfulness that was characteristic of her whole life. She was modest and unassuming, kind and ever thoughtful for others. Those who knew her best loved her most. This was shown by the beautiful display of floral decorations. Rev. A. W. Dewey, a former friend of the family, spoke words of comfort and consolation to the bereaved friends. The song service, which was solemn and beautiful, was rendered by Prof. Taylor's quartette. The bearers were: H. E. Cary, Elmer Vanpool, W. L. Rothermel and H. Vanpool, all of whom had been members of the family much of the time the past six years. It seemed very appropriate that these her kind hands had administered to in life should bear the silent form to its last resting place.

The body was interred at Milton Junction by the side of her husband who preceded her to that better world, and the orphan daughters have the sympathy of a host of friends in their great sorrow. Our great teacher writes many a bright lesson on the blackboard of affliction, and sometimes when all life's lessons have been learned, and we push ajar the gate of life and stand within, then we shall see how all God's plans were right and what seemed the hand of affliction, was love most true.

John B. Inman.

John B. Inman, son of John Inman, was born May 5, 1885, at Plymouth, Rock county, Wis., and died August 31, 1898, at the same place, aged 13 years, 3 months and 26 days.

Accidentally falling off a horse some time ago, he injured his spine, which caused his sickness on August 9, 1898. From then until the day of his death he suffered untold agony. The morning of his death all indications seemed to show a vast improvement in his condition, but like the dying leaves in autumn, as though making one more attempt to cheer up and brighten the world around him, it truly proved to be a delusion, the end coming peacefully at about 4 o'clock in the afternoon, and was as though falling to sleep.

A little over a year ago his mother preceded him in death. A father, two sisters, Maud and Zulema, one brother, Stanley, and many other loved ones remain to mourn his early departure.

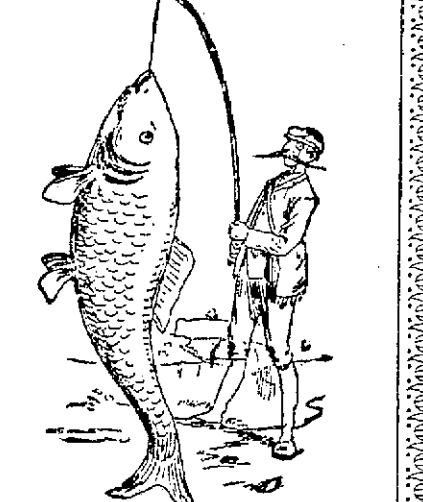

A strange coincidence it seemed, that in a delirium he was away from home and wanted to get back. Shortly before he died he said with relief and as though quite satisfied, "Now I am going home." How true it proved, for now he has gone home and can say:

"I am coming, mother dear, for your loving voice I hear. Calling me to dwell with Christ and you on high. I would bid them all farewell; Of death's sting I thought can tell. Feeling sure that Christ, my Saviour now is nigh."

The funeral services were held at the M. E. Church in Plymouth on Friday, Sept. 3, 1898, conducted by Rev. H. O. Seidel, who preached from the words, "And the streets of the city shall be full of boys and girls playing in the streets thereof." Zeck, 8:5.

The interment was in the Plymouth cemetery.

Not Good Enough for Her.

"Did you hear about Samuels?" asked Mrs. Graymare's husband. "No; I didn't hear about Samuels," the lady answered. "When you have anything to tell, why don't you tell it?" "Yes, dear. Well, Samuels was going home the other night, when a footpad shot at him and the ball hit a latchkey in Samuels' vest pocket and his life was saved. So you see what good a latchkey is." "Indeed! If Samuels had been going home at a reasonable hour he wouldn't have met any footpad. Secondly, he carries 2,000 pounds insurance, payable to his wife, and if it had not been for that key she would be a rich widow now. So if you are hunting around for a latchkey, you will have to bring home some better story than that one. That's all. I'm going to bed now, and out goes the gas in two ticks. Latchkey, indeed!"—Pick-Me-Up.

Dog Taxes in Germany.

Dog taxes are giving trouble to German military men. The Herzog Karl of Mecklenburg-Strelitz infantry regiment No. 43 enjoys the distinction of being the only regiment in the German army whose bass drum is drawn in a little cart by dogs. It won the honor by its gallantry in the war of 1866 against Austria, when it captured the bass drum and cart of an Austrian regiment. It refused to pay a tax on the dogs at Konigsberg, on the ground that they were useful and not a luxury, but was compelled to pay, as the law gives full power to tax all dogs to the local authorities. The Blucher Hussars at Stolp objected to paying taxes on the officers' pack of hounds, as they were necessary implements of war, used to train officers and horses, but were likewise obliged to yield to the "limitless right to taxing all dogs."

## SALSMAN WRITES FROM PORTO RICO

DESCRIBES THE CAPTURE OF COAMO.

All the Boys of His Company Want to Return Home—But Few Are Ill With Fever—Porto Rico, He Says, Is a Beautiful Country With An Excellent Climate.

Edwin Salsman, a former Janesville boy and the son of T. J. Salsman, of this city, writes an interesting letter which has just been received in this city. It bears the date of August 15, and was mailed from Coamo, Porto Rico. "I am well and enjoying the 'best of health,'" says Mr. Salsman, and have been in the town of Coamo ever since we landed on the island. We easily took the town, and planted the American flag in a most prominent place. Now that peace has been declared we are all anxious to get home, which fact especially applies to myself. Our camp is a half mile from Coamo and right between two mountains, which is an ideal place. The water we use comes from the mountains, which is as fine as anyone would care to drink.

A Brisk Fight.

"The Spaniards had a fine fortification four miles from us, and after locating them we sent three of our men under a flag of truce to them, but on seeing them coming they fired on them, shooting through the flag. One shot struck one of the men, wounding him badly. After the three men returned and reported their reception we were ordered to take down the artillery and then commenced a hot fire on their fortification, which resulted in the killing of many Spaniards and the running up of the white flag. Two of our men were killed during the entire battle.

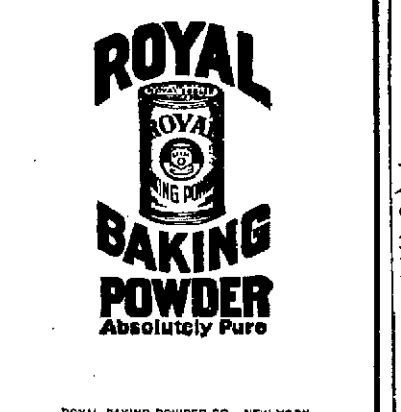

Anxious to get Home.

"We may sail for the United States in a short time, and yet it may be some time. We are all anxious to get home for a good meal, for our food here is very poor, and hard tack and black coffee are favorite dishes. "It seems to me if Uncle Sam cannot afford to treat his men better here he had better get out of business. Don't worry as to my health, for it has been nothing but the best ever since we landed in Porto Rico, and continues so in spite of the meals. "I am congratulating myself that I was not killed or wounded in the battle, as it was a hot one while it lasted. We captured 174 Spaniards and had peace not been declared just the time that it was, we would have had another battle, as we were all ready to go again into action.

"In the hospital here we have 499 sick."

## LATE NEWS BY TELEGRAPH

## FOURTEEN WERE KILLED.

New Bridge Falls Into the St. Lawrence River.

## CONCRETE PIER GIVES WAY.

Terrible Disaster Narrowly Averted—In a Few Hours a Passenger Train Would Have Been Crossing the Structure.

Cornwall, Ont., Sept. 7.—About fourteen men were crushed to death and seventeen others injured by the collapse Tuesday of the new south channel bridge of the Ottawa and New York Railroad Company.

The bridge consisted of three spans, each 375 feet and thirty-seven feet above the waters of the St. Lawrence, which at this spot is extremely rapid. The three spans are supported on stone piers, one on the American mainland, two in the river, and one on Cornwall island.

The two spans closest to Cornwall island were finished and the whole force of the Phoenix Bridge Company, which has the contract for the steel work on the bridge, was employed on the span next to the mainland, removing the traveler, the span having been completed Saturday afternoon.

At noon, pier No. 2, counting from the American shore, suddenly crumbled and fell away into the swirling current, and it was followed with a mighty crash by the center span and the span next to the American shore with the traveler and the men on it.

On the other span the scene was horrible. The men were working on the flooring of the bridge. They were literally crushed beneath the heavy iron-work of the bridge and the traveler, and their bodies now lie at the bottom of the river. Not a single body has been recovered, and there is no hope whatever of finding any until the tremendous mass of wreckage has been removed.

John W. Simmons, manager of the Phoenix Bridge Company, quickly had his entire force on the scene, and after the first and most necessary duty of rescuing the wounded had been performed, the work of removing the debris was immediately started and good progress made.

The moment the crash came every one within reach rushed to the scene and soon the river fairly swarmed with boats and tugs on their errand of mercy. Many a horribly mutilated man was quickly rescued. As soon as it was reasonably certain that every living creature on the wreck had been taken off, the tug Beaver started for Cornwall with its mangled load of sufferers.

Following is a list of the killed so far as can be known until the wreck is raised:

W. J. CUBBY, Paterson, N. J.  
W. J. JACKSON, Columbus, Ohio.  
LOUIS BAUMER, Johnstown, Pa.  
R. L. DYSART, Tyrone, Pa.  
J. D. CRAIG, No. 221 Franklin street, Detroit, Mich.  
PAT MURPHY, No. 139 Bathurst street, Toronto.

TOM BIRMINGHAM, address unknown.

DAN HUGHES, Cleveland, Ohio.  
FRANK LEVIGNE, Ogdensburg.  
W. SHERMAN, Cornwall.  
W. SAUNDERS, Baltimore.  
JOHN CLAUSE, Canthawaga.  
H. DAVIS, Pittsburg.  
CYRIL CAMPBELL, Cornwall.

Those wounded are:  
John Wilson, Malden, Mass.; leg bruised.

George Bloxon, Peckinsville, Vt., compound fracture of leg and badly bruised.

Sergeant Brant, Deseronto, arm cut, and bruised.

Peter Oke, Cornwall island, chest and leg injured.

Louis White, Cornwall island, spine injured, ankle fractured, and injured internally.

P. Day, Cornwall island, scalp wound.

Mitchell Reeves, Cornwall island, chest seriously injured.

Andrew Smith, Rochester, back seriously injured.

W. Thompson, Montreal, right leg broken and badly bruised.

John Fraser, Quebec, leg cut off.

John Pero (Indian), Cornwall island, internally injured.

P. Delabanta, Elkhart, Wis., both legs cut, one hand broken.

D. Barton, Buffalo, legs crushed.

H. Burke, Johnsville, wrist dislocated.

Henry Leaf, Cornwall island, both hands smashed.

F. White, Cornwall island, leg injured.

The cause of the sudden crumbling away of the pier is generally thought to have been the action of the water on the concrete foundation. All the piers have been put in upon a concrete foundation, and pier No. 2 had stood the test of the ice last winter without perceptible damage.

When the accident occurred the foreman was on his way to telegraph the railroad authorities that the bridge was in readiness for the passage of the Ottawa-New York express.

It is feared that some of the victims have been carried far down stream and that the total death toll may amount higher when all are accounted for.

SEVEN bars of Cuba Li are soap for 25c and a naval portfolio free. Sanborn.

FOR HEAD OF G. A. R.

Lively Contest in Progress at the Cincinnati Camp.

Cincinnati, O., Sept. 7.—The fight for commander-in-chief absorbs all interest in the G. A. R. encampment. The Ohio and New York delegation held stormy caucuses at the Grand hotel, with the result that I. F. Mack and Col. Albert E. Shaw stand as their respective candidates. Neither, however, will have the full vote of his state delegation.

When Lafayette Post of New York city came in Tuesday George Kay began a vigorous fight against Shaw.

The greatest trouble encountered by Shaw's opponents was their inability to influence the representatives of any other state or the supporters of Col. James A. Sexton and Maj. Thomas J. Anderson to enter the fight.

By a vote of 22 to 15 the Ohio caucus agreed to present Mr. Mack's name to the convention. The fifteen are from Cincinnati and other points in the south end of the state and they declare their determination never to give Mack their votes.

Before adjourning the New York caucus agreed to support Col. Shaw, but there was one voice, according to Corporal Tanner, against making it unanimous. This leaves the situation much as it was, except that Col. Shaw has dropped out of the race.

It is generally conceded that either Col. Shaw or Maj. Anderson will be the next commander-in-chief. Pennsylvania and Illinois are pulling together to make Philadelphia the place for the encampment in 1899 and for Col. Sexton for commander, and the indications are that they will carry the day.

SHERIFF IN CHARGE.

Mayor Penwell Turns the Town of Pana, Ill., Over to Him.

Pana, Ill., Sept. 7.—Mayor Penwell, being deterred by the city council in his attempt at putting on fifty extra police, by written notice turned the city over to the charge of Sheriff Ira Coburn, who has a large force of farmers as special deputies patrolling the city, some as cavalry and others as infantry.

After the sheriff took charge, a body of negroes from Springside camp made a demonstration by parading, six abreast, the sidewalks of the business sections of the city, all being heavily armed.

Gov. Tanner will be urgently appealed to for executive action against the existing conditions.

President Will Visit Omaha.

Washington, Sept. 7.—President McKinley and his cabinet have accepted an invitation to visit the Trans-Mississippi exposition at Omaha. A special commission from Omaha came to Washington to-day for the purpose of requesting the president to be present at the celebration of peace day at the exposition on Oct. 12.

German Cruiser Awaits Orders.

London, Sept. 7.—The Hongkong correspondent of the Daily Mail says: "From a Spanish source I learn that the German cruiser Arcona is lying off Palawan island, in the Sulu sea, awaiting instructions to take possession. The Germans have long been anxious to purchase the island."

Cuban Commission Has Sailed.

New York, Sept. 7.—Rear-Admiral Sampson, Maj.-Gen. James P. Wade, Maj.-Gen. M. C. Butler and Lieut.-Col. John W. Clegg, members of the Cuban commission, left here for Cuba yesterday on the Resolute. Each commissioner had a number of aids and secretaries.

## KEEPS CORTES IN THE DARK.

News Concerning the War Not to Be Given to the Representatives of the Spanish People—Committees to Study the Peace Proposals.

Madrid, Sept. 7.—In the Chamber of Deputies Tuesday Lieut.-Gen. Corrales, minister of war, declined to comply with several requests for the production of documents referring to the war, basing his refusal on the ground that their production would be "inimical to public interests."

The senate appointed committees to study the various peace proposals.

Army to Go to Cuba in October.

Lexington, Ky., Sept. 7.—Congressman Steele of Indiana, who visited the soldiers here Tuesday, made a speech to the regiment from his state, in which he said the volunteers would all be sent home on furloughs, reassembled in October and December and sent to Cuba 200,000 strong to protect Americans against Cubans, who already, he said, were ambushing our people on the island. He declared it the government's policy to march an army from one end of Cuba to the other, until the insurgents are willing to allow the country to be at peace.

Wisconsin Men Start Home.

Camp Cuba Libre, Jacksonville, Fla., Sept. 7.—The First Wisconsin Regiment broke camp Tuesday and started for Milwaukee. The men were full of enthusiasm, and just before the train left the band played "Home, Sweet Home." The coaches used were ordinary day cars, with no sleeping facilities, though sleepers were provided for the sick able to travel. One hundred and sixty-five patients unable to move were left in the hospital, and they will be sent home as soon as they are able to make the journey.

Welcome Home the Fifth Illinois.

Springfield, Ill., Sept. 7.—The great event of Tuesday in Springfield was the arrival of the Fifth Illinois Volunteer Infantry, Col. Culver. The men were not allowed to leave the train at the station, but were taken straight to Camp Lincoln, where they were served with luncheon by the Springfield Business Men's Association. A large crowd was gathered on the platform and cheered the regiment as the train came to a stop.

Come Home from Porto Rico.

New York, Sept. 7.—The United States transport Chester, Capt. Dann, arrived Tuesday afternoon from Ponce, Porto Rico, from which port she sailed Sept. 1. She brought about sixty officers and civilians and 1,150 private soldiers. Among those on board were Brig.-Gen. Schwan and staff, Brig.-Gen. Haines and staff and the Fourth Pennsylvania volunteers, Col. Case commanding, and several members of the Third Wisconsin.

Alger Will Inspect Camps.

Washington, Sept. 7.—Secretary Alger announced Tuesday that he intended to make a tour of the various camps in which large bodies of men are now stationed, with a view to ascertaining for himself the exact condition of affairs.

SPEAK OUT

The Search Light of Publicity Is Pleasing Janesville People

Publicity is what the people want. Let the people speak on the subject. There has been too much claim, to little proof.

Claims made by strangers is not proof. There is only one kind of proof for a Janesville citizen.

That is the experience of people we know. When friends and neighbors endorse, Make public statement of their case. There can be no question about such evidence.

This is the convincing proof we have. Which backs every box of Doan's Kidney Pills.

No other kidney pills, no other kidney remedy. Can produce such proof.

Here is one case of the many we have:

Mr. E. Dillenback, of 126 Milton Ave., retired farmer, says: "My wife was troubled with kidney complaint for four or five years, and complained of pains in the small of the back in the region of the kidneys. The symptoms all indicated that the kidneys were deranged, and the doctors who treated her said that those organs caused the trouble. As she did not get any better we thought Doan's Kidney Pills might give her relief, and procuring them at the Janesville Co's store, I had her use the remedy. It did for her all that could be expected and did her a great deal of good. We can recommend Doan's Kidney Pills and you can use our names as saying what has been stated above."

## GOV. MOUNT IS SICK.

He Is Seized with Blindness and Severe Pains in the Head.

Indianapolis, Ind., Sept. 7.—Gov. James A. Mount was seized with blindness accompanied by severe pain in the back of the head while seated at his desk in his office Tuesday morning and suffered intensely for an hour or more. He was removed to his home and after a careful diagnosis the family physician issued orders for him to have absolute rest and freedom from official cares for a few days.

The governor has been sick for two weeks and has been under a constant mental and physical strain. He is suffering from exhaustion from overwork, and the attack is believed to have been a slight stroke of paralysis. Close personal friends who have watched him lately have warned him that he was doing too much work, but he could not get away from his office, owing to the press of official business.

He was expected to participate in the opening of the republican campaign, which takes place in two weeks, but his physician has warned him that he can do so only at great risk to his life.

Commission Is Named.

Washington, Sept. 7.—Last night President McKinley announced the names of his appointees on the industrial commission. They are: Andrew L. Harris of Ohio, S. N. D. North of Massachusetts, Frank P. Sargent of Illinois, Ellison A. Smythe of South Carolina, John M. Farguhar of New York, Eugene D. Conger of Michigan, Thomas W. Phillips of Pennsylvania, Charles J. Harris of North Carolina and M. D. ## FIRE ON THE MUSSULMANS.

British Troops Kill and Wound Rioters.

## STATE OF ANARCHY IN CANDIA.

Resistance to British Military Authorities Is Met by Volleys of Musketry and a Bombardment—The City Fired and Many Killed.

Candia, Island of Crete, Sept. 7.—Candia is in a state of anarchy. A collision between the Mussulmans, who were demonstrating against European control, and the British authorities who have been installing Christians as revenue officials, culminated Tuesday in bloody fighting between the Mussulmans and the British troops.

Riots took place in various parts of the city and many have been killed. When the outbreak was fiercest a warship stationed in the harbor began firing shells, with the result that a portion of the city is in flames.

The trouble began with the attempt of the British military authorities to install Christian officials. They had appointed a council of internal control to administer the title revenues, and a detachment of soldiers was stationed outside the office as a precaution.

A crowd of unarmed Mussulmans who had been demonstrating against the Christians attempted to force an entrance into the office. The British soldiers fired and wounded several. The Mussulmans ran for their arms and returning attacked the soldiers.

Other Mussulmans spread rapidly through the Christian quarter, shooting into windows and setting many houses and shops on fire.

It is reported that the British consul has been killed.

## BARKER FOR PRESIDENT.

"Middle of the Road" Populists Nominate a Ticket for 1900.

Cincinnati, O., Sept. 7.—The populists' national convention nominated Wharton Barker of Pennsylvania for president by a vote of 128 4-5 against 97 1-5 for Ignatius Donnelly of Minnesota. On motion of Mr. Donnelly the nomination of Mr. Barker was made unanimous, and then Ignatius Donnelly was nominated for vice-president by acclamation.

The convention got into such a row that the manager of the Lyceum ordered them to leave the hall, fearing the destruction of his property. Order was finally restored by the Butler faction bolting and leaving the hall.

A letter was read from ex-Gov. Waite of Colorado, in which he denounced Senator Butler as a traitor, and advocated the nomination of straight populist tickets for president and other offices.

An elaborate address to the people of the United States was adopted. It reaffirms the previous platform of the populists and says, among other things:

"While we demand that if either gold or silver is to be used as money both shall be so used, we insist that the best currency this country ever possessed was the full legal-tender greenback of the civil war. And we look forward with hope to the day when gold shall be relegated to the diseased teeth of the people and the human family possesses, free of tribute to bankers, a governmental full legal-tender measure of value, made of paper, that will expand side by side with the growth of wealth and population. We call attention to the public school system and the postal service as exemplifications of a beneficent state socialism and to similar institutions for the improvement of the condition of the people."

The platform especially denounces Senator Marion Butler of North Carolina as chairman of the national committee for attempting "to drive the populist party into the democratic organization."

The resolutions also provide for the reorganization of the party, with Milton Park of Dallas, Tex., as chairman.

The most important action of the convention was the adoption of the referendum system as the cardinal principle in the future of the government of the reorganized party. The nominations just made are to be referred to the voters of the people's party of all states and territories. The new rules provide that the new people's party shall never again hold a delegate convention of any sort—national, state, district or local—but that the nominations for all offices shall be made through "the initiative and referendum or petitions endorsed by popular vote."

## ANGLO-GERMAN AGREEMENT.

Officials Say It Is Incomplete, but Colonial Questions Are Included.

London, Sept. 7.—The Pall Mall Gazette says it has complete confirmation of the existence of an Anglo-German agreement which is mainly commercial, but, the paper adds, which provides a basis for the adjustment of all differences regarding territorial questions in all parts of the world.

The report was not cabled to the Associated Press, as the officials of the foreign office here said they were far beyond the truth.

The foreign officials added that the agreement is yet incomplete. It relates generally to Anglo-German interests in China, Africa and elsewhere, but it is not precise in its stipulations.

Disarmament Congress to Meet.  
London, Sept. 8.—The St. Petersburg correspondent of the Daily Telegraph says: "Almost all the European powers have sent favorable replies to the circular of Emperor Nicholas, and it is now regarded as certain that the disarmament congress will meet in St. Petersburg in November."
